4 COLOUR SEALED INK CUP TAMPO PP 150 PAD PRINTER (KENT)

This would be an ideal start up machine for anyone looking to go into subcontract printing. It can be used for single or multi colour printing.

This is a four colour machine with a 14 station transfer carre. The machine and transfer carre are mounted on a height adjustable stand.

The machine is in good working order but the ink cup ceramic rings may need replacing and the price reflects this.

The approximate cost to replace the ink cups is £200 - £250 each.

The machine can be seen running.

Also available is a flaming unit and a pneumatic jig shuttle.

YOM: 1996
LOCATION: Hull
PRICE: £4,000
